The Philosophy

The ocean's curative properties are the reason why we are very often propelled to go to the beach when life gets too stressful. A trip to the beach stretches to us a break from the vanities of the big cities and allows us to reload ourselves. After a tiring day at work, we are bound to find ourselves envisioning a bright sun shining down on us, ocean waves tapping the shoreline, and wind gently blowing. The ocean is always kind enough to extend to us ample sensations of peace and and bliss, which is why we have chosen it as our inspiration.

180 Spa

Our ocean-inspired facility at the Lancaster Eden Bay Hotel located in Ramlet El Baida affords you an opportunity to immerse yourself in the ultimate experience of wellness and leisure. The Spa is situated on Beirut's unspoiled sand front, and what makes our space exceptional beyond comparison is its exquisite décor and the full panoramic view of the area's coastline.

For a complete marine experience, we have chosen certain ocean elements to be the centerpieces of our theme, and the 180 Degrees treatment rooms bear the names of these elements - the **Seahorse** (for serenity and patience), the **Seaweed** (for prosperity and health), the **Seashell** (for journey and infinity), and the **Starfish** (for intuition and inspiration). The Moroccan Hammam is called **Waves** (for rejuvenation and energy), and the Couple room is called the **Dolphins** (for emotions and power).

180 Fitness & Spa is your go-to place if you wish to both wind down and work out. Our gym at Eden Bay is a 200 square meter space which accommodates an astounding fitness experience. Visitors will get to exercise behind frameless glass walls and enjoy a breathtaking panoramic view of the ocean.

Natura Bissé

Founded by Ricardo Firas Mulleras in 1979, Natura Bissé is a Spanish luxury skincare brand that first entered the professional cosmetics market with five creams for different skin needs. Mulleras decided to get in the business of skincare when he saw how hydrolyzed elastin and collagen proteins improved the texture of the skin.

The company was built on a multitude of pillars, including professionalism, commitment, talent, and social responsibility. These essential values, with which the product line has become globally associated, are still materially present in its current structure.

Natura Bissé products are used by our professionals during treatments, and they are sold at our boutique for our customers to enjoy an ultimate home-based skincare experience.
